

# T57 Superfoam® Plus

The Superfoam® Plus is a durable rubberized sponge mat designed for extreme ergonomic comfort. Made from a completely closed cell foam blend, Superfoam® Plus does not absorb liquids and is highly resistant to greases, oils, and animal fats. At ¾" thick this anti-fatigue mat is ideal for workers standing for long periods of time. Perforated version with drainage holes to facilitate removal of liquids and debris is also available.

## Recommended uses:

- Medium duty – stationary standing workstations such as cooking lines, service counters and food prep stations.

## Product Specifications:

- Overall thickness: ¾"
- Resistant to most industrial oils and animal fats.
- Beveled edges on all four sides help minimize tripping hazards
