### Standard Model Features

#### **REFRIGERATION SYSTEM**

Performance-rated refrigeration system

Natural, environmentally-safe, high-efficiency R-290 refrigerant<sup>1</sup>

Unique forced air design utilizes fans (approx. every 12") across the entire back of unit for even distribution of cold

Automatic, hot gas condensate evaporator

Non-corrosive, plasticized fin evaporator coil

Easily serviceable, slide out condensing unit

Expansion valve system

#### **CABINET ARCHITECTURE**

2" non-CFC polyurethane foam insulation

Spring loaded, self closing door (above condensing unit)

Stainless steel, easy glide roll-out drawers on heavy-duty drawer track

Smooth, polished chrome drawer handles

Magnetic snap-in drawer/door gaskets

Adjustable 6" stainless steel legs

#### **MODEL FEATURES**

Electronic controller w/digital display & hi-low alarm

Refrigerated section w/door above the condensing unit

1" diameter cleanout drain

(requires provisions for floor drain)

Fully welded, non-corrosive stainless steel pan per drawer w/built-in drain tubes and ice grates (drain into gutter)\*

Electronic control, off-cycle defrost

Field rehingeable door (above condensing unit)

<sup>1</sup> R-290 refrigerant meets all federal and state regulatory requirements.

\* Models come standard with a door over the condensing unit. A drawer over the condensing unit is an option. This section is not set up for fish storage. Each drawer has a removable pan, with a drain tube at the back corner. Water from melting ice in the pan, along with moisture from the product, drains out the storage pan through the tube, a long a trough on the interior cabinet wall, down the sloped interior bottom, and out the cabinet through a 1" drain tube.
