Cone Bakers

AIA File No. _____

NEMCO Cone Bakers feature digital controls for fast, convenient, precision baking of versatile waffle cones. Heavy-duty, lock-down, fixed, seven-inch aluminum grids provide uniform thickness, while flat-ring heating elements bake to a taste-tempting, overall golden brown. Preheats to ideal temperature in just 12 minutes and provides up to 60, 7" diameter cones per hour, per grid. Easy-to-read LED display counts down baking time. Audible alarm signals the minute baking is complete. Coiled, spring-type handle remains cool for fast, easy handling.

Standard Features:

- Digital Programmable controls with count down timer
- Standard LED display and electronic audible alarm
- Top Mounted Control Panel, minimizes mess
- Single or Dual grids available
- Constructed of brushed stainless steel
- Coiled Spring "Cool Touch" handles
- Cast Aluminum Grids
- Feet - approx. 5/16" high & adjustable
- 120 & 240 Volt models have ETL & NSF listing

Optional Accessories:

- 77005 Cone Form Roller, Makes 7" Finished Cone
- 77006 Walking Sundae Mold

* Height is with the top closed; Cone Baker open = 17 1/2" (44.5 cm)

Optional Accessories	Description
<input type="checkbox"/> 77005	Cone Form Roller, makes 7" finished cone
<input type="checkbox"/> 77006	Walking Sundae Mold

Typical Specifications

NEMCO cone bakers shall be constructed of brushed stainless steel. They shall have uncoated aluminum grids. All units shall have a full sheath ring heating element with a maximum temperature of 410°F, a programmable control board, with LED display, and a "Cool Touch" coiled spring handle. 120V models shall come with a NEMA 5-15P plug and the 240V models shall have a NEMA 6/15P plug attached to the 42" cords. All machines shall be ETL certified and National Sanitation Foundation listed.
