

**Stacking Carving Stations are SMART!**

**1A11760110SET ●**

**Why do Carving Stations give us the BLUES?** Cleaning and sterilizing them is a nightmare. Storing them is a nightmare. Juices run all over the place. What's a poor boy to do?

**The answer is simple. Get a SMART Carving Station.**

Cleaning and sterilizing is simple. Put it in the dishwasher. The heat lamp is removable within seconds. No tools needed. All parts of the carving station that touch food are dishwasher safe. When not in use, stack 4 of them on top of each other WITH the heat lamps attached. Remove the heat lamps and stack as many as 15 carving station bases together! Heat lamps can hang separately on hooks on the wall. Under the carving surface is a reservoir to collect juices. Carving surface also has an extra wide area for pushing scraps into the reservoir. Heat lamp housing rotates 360° at a 10° angle. Run as many as 8 units on one standard 110V, 20amp circuit.

Make life better and do it the **SMART** way.

**Additional Information:**

Carving Station Footprint: 24.25"x23"x.25"

Base weight: 7 lbs.

Base plus Carving Surface weight: 12 lbs.

Base Height: 2.375"
