

Domino Cold Display Chiller Set is a food chiller & plate stand all in one!

1A194BW11NSF ●

DOMINO is a completely new concept in modular buffet systems. The Domino Cold Display Chiller Set is designed as a food chiller & a plate stand all in one. The set includes a 90° opening acrylic domed cover, a large tray stand with wood base, a 1/2 size yogurt lid, a 1/2 size NSF coated aluminum tray, two ice packs, extra set of legs for additional height & an accessory pan to hold the ice packs used to chill your food items. The large tray stand includes a wooden base, which also serves as a plate stand. All Domino components can share legs so you can weave together pieces to build it your way.

The Domino system connects like LEGO® blocks, but it is made of solid 18/10 stainless steel. Mix it, match it, change it; build it high or keep it low. It is simply the most versatile, easy to use system ever made.

All components can be connected to each other. Shared legs slide into each other quickly and easily. Add a leg for extra height, remove a leg for a lower profile. You are only limited by your imagination.

Build a beautiful breakfast buffet this morning. Add some different components and you have a lunch buffet. Add a couple more components and you are ready for dinner. What would you like to see? Decide and make it so. No matter what, your choice will be SMART!

NOTE: THIS UNIT IS DESIGNED TO BE UP TO (3) LEGS IN HEIGHT

Includes: 1each 1A19406180, 1each 1A11513STS, 1each 1A19927BOM, 1each 1ASBW11207250, 1each 1A11512HLF, 2each 1A11511, 1each 1A19402260
