

The 230V Induction Stand Set is smart!

1AIW1414230VSET ●

The 230V Induction Stand Set includes the stand (1A11120RVS) & the induction warmer (1AIW230V2).

The SMART Induction Warmer is the most economical warmer on the market today. It requires 69% less energy than our closest competitor.

Going green made easy: When our induction warming system is combined with our chafers and urns, you only need 0.87 amps of power per chafers, soup or coffee urn. This makes our system the greenest in the world for heating your buffet, and enables you to run as many as seventeen induction warmers on a single 15 amp circuit. Having such a low power requirement will allow you to easily set up buffets in meeting rooms, or on the fly without fear of tripping breakers.

Induction for Dummies: Your staff turns it on and walks away.
