Short Form Specifications

Eagle QuadPLUS® Dunnage Rack, model #_____.
Removable green polymer shelf mats with MICROGARD® antimicrobial protection. Green polymer mats snap over Eaglegard® greeen or Valu-Gard® green epoxy shelf. Pack of split sleeves each for wire shelf and 3-sided frame. Louvered or solid mats available. 3-sided channel frame designed for maximum weight loads. Stationary with adjustable feet and mobile racks available. Mobile racks feature four 5˝-diameter swivel casters (two with brake).

Model #: _____
Project #: _____
SIS #: _____

EG8166   Rev. 06/18

Features

- Green polymer shelf mats "snap" onto standard wire shelf.
- Mats lay securely on top of wire shelf.
- Injection-molded polypropylene mats feaure MICROGARD® antimicrobial protection against bacteria, mold and mildew.
- Louvered and solid mats available.
- Mats are easily cleanable and dishwasher safe.
- Temperature rating for mats: Up to 200˚F for intermittent exposure to cleaning, such as a dishwasher.
- Mats have a temperature rating of -20˚F to 125˚F under continuous use.
- Shelf, 3-sided frame, and posts are coated with Eaglegard® green or Valu-Gard® green epoxy finish.
- 3-sided frame designed for maximum weight loads.
- 1˝ (25mm)-diameter posts grooved on 1˝ (25mm) centers, allowing for the adjustment of the top shelf and 3-sided frame.
- Set of split sleeves (included with wire shelf and 3-sided frame) snap onto Eagle's 1˝-diameter posts.
- Easy assembly—no tools required.
- Dunnage rack features wire shelf with patented Quad-Truss® design (patent # 5,390,803).
- 14˝ (356mm) height.
- Available stationary or mobile.

New **Quad PLUS** ®
ANTIMICROBIAL

Polymer Dunnage Racks
Incorporating our QuadPLUS® Polymer Shelf Mats

Durable
- High-impact polymer will never corrode nor rust. Epoxy coated heavy gauge steel truss frames.

MICROGARD® Antimicrobial Protection
- Standard on polymer mats. Protects against bacteria, mold and mildew.
AQ AutoQuotes

KCL

- MICROGARD® is an antimicrobial agent which contains built in protection to retard the growth of a broad range of bacteria, mold and mildew on the surface of the shelves that cause stains, odors and degradation.
- MICROGARD® combines inorganic antimicrobial silver ions with a patented delivery system. The patented delivery system triggers the release of silver ions which react with bacteria in three ways: 1) suffocates the cell, 2) stops the cell reproduction system, 3) stops the cell from growing.
- MICROGARD® is a second line of defense. In keeping with good hygiene practices, clean this product as usual. The protection will not wash out, while organic bactericides may. Note: MICROGARD® does not protect users or others against bacteria, viruses, germs, or other disease organisms.
